

SWIMMING A LIFETIME SKILL

Dear Parents,

Welcome to the YMCA of South Florida swim lesson program. The benefits of learning to swim go far beyond developing a skill. Our Swim Lesson program also serves as a starting point for developing and supporting a healthy and active lifestyle.

The purpose of YMCA swim lessons is to develop competency in swimming as well as confidence and endurance. Each class has five components: Personal Safety, Personal Growth, Stroke Development, Games, and Rescue. Each week will also incorporate character values such as caring, honesty, respect, and responsibility.

Due to the rapid increase of participants in our swim lesson program we have some new policies and helpful information, please take some time to read the following information. If you have any questions, please ask to speak with your Family Center Aquatic Director for assistance.

Sincerely,

The YMCA of South Florida Aquatic Team
