YMCA & Memorial Healthcare System Partnership

Our Y continues to enhance our health conversation series! We are a proud partner of Memorial Health Care System and we are excited to offer additional health related virtual (for now) conversations with top healthcare professionals. We are planning to host many virtual and in person health education sessions. See the right column for activities through this partnership in October 2021.

Memorial Healthcare System (MHS) has been a long-standing partner and supporter of the YMCA of South Florida, with an ongoing commitment through the years, always focused on the health and wellness of our children, families, and communities. Our partnership with MHS brings access to opportunities to gain valuable information across many health topics that affect the lives of so many we serve. We have many great discussions and activities planned for the rest of 2021 and next year. More to come!
